

Dear Legislator,

Thank you for your service in our State Legislature.

Today I am writing to you, regarding "*HB 5326- An Act Concerning Compassionate Aid in Dying for Terminally Ill Patients*".

I am asking you to **VOTE NO** on this bill.

Assisted suicide, which is what "compassionate aid in dying" really is takes a life and diminishes the value of life. It places those who are vulnerable- the elderly, those with disabilities, the poor, at greater risk of being taken advantage of... their life being devalued. Proponents may tell you this is about care and compassion- it is not. Care and compassion value life, NOT death.

Please **VOTE NO on HB 5326** or any other bill that supports Assisted Suicide.

Thank you again for your time and concern regarding this matter.

Sincerely,

Daniel Wallace  
Prospect, Connecticut
